Question 7 : Create a Scatter Chart to compare Discount vs. Profit by Sub-Category. Are there any outliers where high discounts resulted in negative profit?

Answer : Yes, the scatter chart shows at least one clear outlier where a high discount resulted in negative profit. One data point has a discount of around 200 with profit below 0, indicating a loss despite offering discounts. Overall, most sub-categories still generated positive profit, but excessive discounts in some cases reduced profitability.
